

TECHNICAL RIDER

JOURNEY REVISITED is a 5-piece rock concert show that includes a drummer, a bass player, a guitarist, a keyboardist, and a lead vocalist.

SOUND SYSTEM

Journey Revisited requires a professional, high definition sound reinforcement system. This system shall be in proper working order and free of noise or distortion. The system should be adequate to cover the entire audience with sound levels appropriate for a rock concert. We will need a minimum of eighteen (18) channels. (Please see attached stage plot for input list.)

STAGE MONITORS

Six (6) monitors with an individual mix for each is preferred, however we can work with six (6) monitors and four (4) monitor mixes, if this is what is available.

MICS / STANDS / DIRECT-BOXES

- At least seven (7) mics for drums, including appropriate boom stands and micclips.
- Three (3) vocal mics (SM58 or equiv) with boom stands for keyboards, guitarist and bassvocals.
- One (1) vocal mics (SM58 or equiv) **cordless for lead vocalist.**
- One (1) Direct box for Bass amp
- One (1) Direct boxes for Guitars
- Two (1) Direct boxes for Keyboards
- One (1) Guitar rack
